### CRITERIA FOR USING THE CERTIFICATION MARK IQNET AND CQS

The IQNET certification mark may be used in combination with the certification mark of the IQNET partner and may only be used by the certified organisation according to the following rules:

- with the name of the certified organisation
- with the certificate's registration number (optional)
- with reference to the applicable standard
- within the validity period of the IQNET certificate
- within the certified scope/area
- without any changes
- in colours as specified by the IQNET partner; enlarging or reducing is allowed
- on documents, signs, windows, advertising media; when the certificate coverage/scope does not cover all activities of the organisation, a clear description of the certificate coverage/scope shall be made together with the IQNET certification mark

#### The IQNET certification mark may not be used:

- on products
- on "primary packaging" or any "secondary packaging" unless provided that the following text is included in a manner that makes it obvious that the text and certification mark are linked - "(This product) was manufactured in a plant/facility whose quality (or/and environmental / health and safety) management system is certified/registered as being in conformity with X". X = standard, ISO 9001, ISO 14001 etc...
- for ISO 22000, the certification mark must not be used, even with any statement that the organisation has a certified FSMS, on any product packaging (this applies to all product packaging - primary, outer or secondary)
- on report/protocols about laboratory tests, calibration or inspection
- to environmental certification when forbidden by legal requirements.

Used this mark IQNET:

and this marks CQS:
